

# REPLACEMENT PARTS

Onfield replacement parts and Instant Body Scan keep players on the field and out of the locker room.

## PULL-OFF FINGERS

A favorite with offensive linemen.

## PULL-OFF FEET

A favorite with punters and kickers.

## BRAIN INJURIES

Team bio-med technicians use a product called "Brain Bounce," a gel that replaces the fluid around the player's brain and protects against concussions.

## INSTANT BODY SCAN

This scan instantly diagnoses the player's injury and recommends treatment. Here, two bio-synthetic joints have been used to replace the player's injured knees.
