**Music is most important to me because when I feel bad it
rains my radio on all my troubles flat away like butterflies.**

**Sports are life for me.**

— By Danny Morales, 14, eighth grade, St. Petersburg Catholic High School

**This is important because it is nature.**

— By Jason Spitler, 14, sixth grade, St. Petersburg Catholic High School

**My family, because I can always talk to them about anything, like friends, growing up and having trouble with my self. My dad taught me how to read my life.**

1. **My View:** This film really blew me away. First of all, the acting was amazing. Jim Carrey did an excellent job and carries this film with his face alone. Also, the story line was great. It doesn't take a genius to figure out how the story is going to end, but it was still fun to watch. Thirdly, the special effects were well done.

2. **Favorite part:** The scene when the dad gets the video message from the satellite, they notice Jimmy's name in the satelite. Their minds are stuck on a video message from the satellite, they forget to eat. This scene makes me laugh.

3. **Least Favorite Part:** The one scene I didn't like was when everyone was concentrating on what the video message was saying. They forget about life that is happening around them. I think that scene was out of place.

4. **My View:** In my opinion, this was one of the best films I have ever seen. (I didn't see it in IMAX, though.) While watching, it makes you laugh, cry, shout and feel the joy of being alive. This is an important film because it teaches us about life in the future, not just for the present. It makes you think about the way the planet is going to change in the future and also challenges us to help change it. I highly recommend this film.

**Least Favorite Part:** This film was a little too long, but still good. I liked how they didn't mess around with the story.

**My View:** I loved this film, it was fun to watch and all the characters were well played. This film was about a man who had no name and was a nobody until he became famous and married the woman of his dreams. The acting was great, the story line was good and the special effects were excellent. I highly recommend this film.
